Information Communication Technology (CSC101)

Lab 01

Topic: Introduction to MS Word

Objective

This lab provides hands-on experience with Microsoft Word, a powerful tool for creating professional documents such as letters, reports, proposals, resumes, and more. Students will learn how to format text, insert tables and images, use mail merge, and customize document appearance.

Activity Outcomes

After completing this lab, students will be able to: - Create and format a formal text document. - Use mail merge to create personalized documents. - Insert and manipulate tables, images, shapes, and text boxes. - Apply headers, footers, page backgrounds, borders, and other visual elements.

Useful Concepts

Microsoft Word is widely used for document creation and is available for Windows, Mac, and online via Office 365. Students can use templates for letters, reports, proposals, newsletters, brochures, catalogs, posters, flyers, resumes, business cards, invoices, receipts, and mailing labels.

Instructor Notes

Students should refer to Microsoft's official website for additional guidelines and tips.

Activity 1: Exploring MS Word

1. **Title Bar:** Shows the name of the document and window controls. The default file name is "Document1".
2. **Quick Access Toolbar:** Contains frequently used commands like Save, Undo, and Redo. Can be customized and repositioned above or below the ribbon.
3. **Ribbon:** Located below the title bar, organized into tabs (Home, Insert, Design, Layout, etc.) and groups. Contextual tabs appear when objects like images or tables are selected.
4. **Groups and Buttons:** Buttons are organized into groups on each tab. Buttons may have arrows for more options; split buttons have separate default actions and dropdown menus.

5. **Dialogue Box Launcher:** Opens additional commands in a dialogue box or side panel.
6. **Ribbon Display Options:** Allows hiding or showing the ribbon, Quick Access Toolbar, and window controls for full-screen or partial views.
7. **Dynamic Resizing:** Ribbon adjusts automatically based on window size. Buttons may collapse when the window is small.
8. **File Tab (Backstage View):** Provides options for opening, saving, printing, and managing document information.
9. **Workspace:** Includes rulers, margins, scroll bars, and the blinking cursor (insertion point).
10. **Status Bar:** Displays page number, word count, document view options, zoom slider, and can be customized for additional information.

Creating a Document

- Open Word and type any text (e.g., “My first document”).
- Save your document to a location (Desktop or Documents folder).
- Use Save As to specify the file name and storage location.

Activity 2: Controlling the Appearance of Your Document

- **Page Margins:** Adjust via Layout → Margins → Custom Margins.
- **Page Breaks:** Insert via Insert → Pages → Page Break.
- **Headers and Footers:** Insert and customize via Insert → Header/Footer. Add text, date, and page numbers.
- **Page Background:** Add color, watermark, or page borders via Design → Page Background group.

Activity 3: Inserting Online Pictures, Shapes, Text Boxes, and Other Pictures

- **Online Pictures:** Insert via Insert → Illustrations → Online Pictures. Search via Bing or use Pixabay for free images.
- **Resizing Objects:** Use corner handles for proportional resizing, side handles for non-proportional resizing, rotate objects with circular handle.
- **Text Wrapping:** Inline with text or floating. Change via Layout Options.

- **Applying Formatting:** Use Picture Tools → Format for styles, borders, and artistic effects.
- **Shapes:** Insert via Insert → Shapes. Customize size, color, and outline.
- **Text Boxes:** Draw text boxes for freestanding text, customize fill and border.
- **Other Pictures:** Insert your own images from flash drive or web. Apply color and artistic effects, remove background, crop, or use Format Painter to copy formatting.
- **Inserting Web Images:** Use Pixabay or other free sources, ensuring proper copyright compliance.

Activity 4: Using Mail Merge

- **Concept:** Mail merge allows creation of personalized letters using a data source (Excel, Word, or Access).
- **Steps:**
 1. Open sample letter in Word and data file in Excel.
 2. Start Mail Merge via Mailings → Start Mail Merge → Step-by-Step Wizard.
 3. Select recipients using existing Excel list.
 4. Insert Address Block and Greeting Line.
 5. Insert merge fields for personalized content.
 6. Preview letters and complete the merge to print or save.

Graded Tasks

Lab Task 1

Create a short report on topic of your choice which includes the following:

- Title page
- Table of Content
- Bibliography and referencing.
- Tables/Figures with captions.

Lab Task 2

A flyer is a pamphlet, which is a form of paper advertisement intended for wide distribution in a public place, handed out to individuals or sent through the mail. Consider

you work at a company. Your boss has asked you to prepare a flyer that advertises company’s major products and/or services.

Solution

Lab Task 1: Short Report

Title: Impact of Social Media on Modern Communication

Student Name: Your Name

Course: Information Computer Technology

1.Introduction

Social media platforms have transformed the way people communicate. They provide instantaneous interaction, global reach, and opportunities for collaboration. Platforms like Facebook, Twitter, and Instagram allow users to connect with others across the globe and share information in real-time.

2. Background

Since the early 2000s, social media platforms have become essential tools for both personal and professional communication. They offer networking opportunities, digital marketing channels, and community engagement.

3. Advantages of Social Media

- Easy communication across distances
- Information sharing in real time
- Marketing opportunities for businesses
- Networking and career opportunities

4. Disadvantages of Social Media

- Privacy concerns
- Spread of misinformation
- Addiction and distraction
- Cyberbullying and harassment

Social Media Platforms	Users	Year Founded
Facebook	2900	2004
Instagram	2000	2010
Twitter	450	2006

Table 1: Popular Social Media Platforms and their Users

5. Conclusion

Social media has revolutionized communication, offering both opportunities and challenges. Awareness of its advantages and disadvantages allows users to leverage its benefits responsibly.
